## WEEKLY.

One Year in Advance \$10.00

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

MONDAY, MARCH 20, 1899.

The March number of the Indianian contains an extensive illustrated write-up of Connersville.

SENATOR GILBERT, of Angola is said to be a republican candidate for governor. He is not well known in this part of the state.

The people of Indianapolis can't get together on the street railway proposition. There are too many that are personally interested in the franchise.

The Republican has recently spoken of the numerous boys seen on the streets of Seymour who ought to be in school. We have learned that many are in sympathy with what we said and believe that the welfare of these boys should be looked after. Whose duty is it to get them into the schools? Certainly the parents should be the first to act.

## Sale of Two Farms.

Nearly every resident of Hamilton township in town Saturday seemed to be interested in a land trade that was under way. There were two or three men wanted the eighty-four acre farm Geo. A. Robertson wanted to sell. Fred Mellencamp finally purchased the farm at \$80 an acre and after the trade was made J. W. Holmes, who also wanted the farm, showed some signs of disappointment. John R. Tindler was also interested because he wanted a right-of-way through the farm sold. Then this sale involved the sale of the Blair farm east of Seymour and owned by Sam Rhodes. Mr. Robertson had purchased this farm, conditioned on the sale of his Hamilton township farm. But finally the transfers were made and the credit of the sales goes to Geo. A. Robertson & Co. the new real estate firm.

Saturday afternoon the case of the State vs. W. R. Stewart charging him with unlawfully wearing a G. A. R. badge, was dismissed after a ruling by Justice Thurston that it would be necessary to prove by Grand Army officials that the badge was an official G. A. R. badge. F. W. Wesner represented the state and O. H. Montgomery the defendant.

Mutts bread, sweet and sour pickles, Hancock's.

Sheriff Goss went down to Chestnut Ridge today on official business.

Could not express the rapture of Annie E. Springer, of 1125 Howard-st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. ## Pleased with their Reception.

The glee club boys speak in the highest terms of the reception accorded them by the Seymour people last night. The Baptist church where the boys sang was filled with a large and enthusiastic audience. Every number of the program received an encore and several times the club was recalled the third time. Director Parker expressed himself as highly pleased with the work of the club, and also of the high appreciation manifested by the audience.—Franklin Star.

## Mr. Neighbor's Meeting.

Rev. R. E. Neighbor, former pastor of the First Baptist church here, was greeted by many friends Sunday. His visit here was in the interest of the Anti-Saloon League which has a national and state organization and is now effecting local organizations in a number of states. In the forenoon he spoke at the Methodist church to a large congregation. The Central Christian church adjourned their services and heard Mr. Neighbor also at the Methodist church. In the evening he spoke to an audience that filled the Baptist church, and interested all of them in the subject discussed. Mr. Neighbor is a conservative and logical thinker and is intensely earnest in the temperance work. His addresses Sunday were such as prompt men to think on these questions of reform that are being agitated in all parts of the country.

The most complete and thorough discussion of spring fashions that we have seen is found in Harper's Bazar. It is, without doubt, the best weekly fashion journal in the United States. In the March issue, especially that for March 11, it presents the important subject of spring and summer fashions in all their details, with illustrations of the gowns, capes and outing costumes which will be the rage during 1899. Full descriptions are given of golf, bicycle and costumes, are directions for making them.

## CYCLING AND ASTHMA.

A London Physician Says the Former Will Cure the Latter.

Dr. Marrot of London recommends bicycle riding as a remedy for asthma. Here is what he says about it in a letter to The Medical Record: "If asthma is a form of mountain sickness and if that distressing affection of high altitudes can be cured by training for the exercise of climbing, why should not asthma also yield to the training of the respiratory movements needed to carry the tidal air through the lungs? Of all means of training respiration I think cycling is the best. When a person first takes a cycling exercise, it will be found, especially on going up hill, that the breath is wanting, the heart beats uncomfortably and the legs tire, but after training these discomforts disappear, nothing will be thought of ascending hills, the heart has become perfectly comfortable, all breathlessness has disappeared and the legs will no longer feel any fatigue.

"Cycling exercise, first of all, increases the depth of breathing, and that without fatigue, as the respiratory movements are automatic. At the same time it will accustom the rider instinctively to take in at each respiration the volume of air required to aerate the blood. Persons who do not care for cycling out of doors can take the same kind of exercise at home by means of a dummy cycle, consisting of an iron wheel driven by pedals, the resistance of the wheel being so contrived as to simulate bicycle riding. A strap carried partly around the rim of the wheel can be tightened at will by the rider, thus increasing the labor and recalling the effort of riding up hill. My experience of the results of this treatment is unfortunately limited to only one person. In this case it has proved eminently successful. This person took to bicycle riding three years ago for pleasure and in very great moderation for the first two years. He observed that the attacks of asthma to which he was subject became fewer. The tightness and wheezing which occurred every night have now entirely disappeared."

Trial size bottles 10c, large sizes 50c and \$1.00 of A. J. Pellens, druggist.

## BABY'S PHOTOGRAPH.

An Example of What the Man of the Camera Endures.

A young photographer, when asked what sort of subjects presented the greatest difficulties to him, replied without a moment's hesitation, "Babies."

"For instance," he continued, "I took photographs of a little 10-month-old fellow the other day in six different positions. Yesterday I sent proofs to his mother, and today she brought them in."

"I'm sorry," she said, without any obvious grief, "but none of these negatives will do."

"Not one of the six?" I inquired, though I was prepared for what was to follow.

"No," she said, "I'm afraid not. You see, I like this one very well, though, of course, it doesn't do baby justice, but his Aunt Ellen says it's an absolute caricature of the dear little fellow. The one she likes I don't care for at all, and his papa says he should never know for whom it was intended, it looks so cross, and baby is such a sunny child."

"The one he likes, this smiling one, I shouldn't consider for a moment, for it makes baby's mouth look so much larger than it really is."

"His grandmother chose that one, but as Cousin Fanny said, there's a very queer look to the child's eyes in it—very queer! However, she likes that one where he's almost crying, that sober one. You ought to have heard baby's grandfather when she said she liked it."

"He really decided the thing, for what he said seemed so sensible. He asked me why I didn't have some more taken and see if there wouldn't be at least one that would really look like baby. Now, when can he sit again? It's hard for me to spare the time, but you see it is the only thing to be done!"—Glasgow Herald.

## STROKES OF A RAZOR.

How Many Do You Suppose It Takes to Shave a Man?

"Now that you've finished shaving me, how many strokes of the razor did it require?" asked the man in the chair, as he straightened up to have his hair combed.

"That's pretty hard to tell," said the barber.

"Of course it is. But you've been in the business how long?"

"Fifteen years."

"You ought to know by this time about how many strokes of the razor it requires to shave a man, supposing that you go over his face a second time."

"I might make a guess at it."

"All right. What's your guess? Remember that I have a hard beard."

"Well, I should say about 125."

"You're a good guesser, I don't think. Some time ago I got into the habit of counting the strokes of a razor every time I was being shaved. It's a good way to employ your mind. In shaving me you just made 783 strokes with the razor."

"I wouldn't have believed it."

"No man believes it until he takes the trouble to count. In my case I never knew the number to fall below 500, and it has gone more than 800 at times. I call it a stroke every time the razor is brought forward and then drawn back. I should judge that there are no fewer than 500 strokes in a first class shave. You remember that, and probably you can win a few bets."—New York World.

Bank Impertinence. The Philadelphia Record tells of an old Pennsylvania farmer who recently came into possession of a check for \$200. It caused him a great deal of anxiety, and for a long time he could not muster up the courage to have it cashed. Finally, while on a trip to town, he summoned up nerve enough and, strolling into the bank, presented the check. The teller glanced at it hastily, and then, after the fashion of his kind, brusquely asked, "What denomination?"

"Lutheran, got down to it! But what's that got to do with it?" as brusquely replied the old farmer, to the great astonishment of the bank official.

It required several minutes' explanation before the teller could get the old man to understand his question, and then the latter took his money and departed, with sundry growls derogatory to banks in general.

Equal to the Occasion. In 1840 a great convention was held in Baltimore by the young men of what was then known as the Whig party for the purpose of ratifying the nomination of General William Henry Harrison for the presidency. There was no hall in the city large enough to hold the crowd of delegates who attended. The convention accordingly met on the Canton race track, and when the Great Whig orator of this state, who was chairman of the Young Men's national committee, arose to call the meeting to order he was so impressed by the vastness of the assemblage before him that instead of the usual formula he exclaimed, "The nation will please come to order!"—Baltimore Sun.

An Insult. A Caribou (Me.) man lately wandered into a remote hotel that doesn't keep a dictionary, and on coming down in the morning was asked by the landlord how he rested.

"Oh," replied the gentleman, "I suffered nearly all night with insomnia."

The landlord took offense at this and roared, "I'll bet you \$2 there ain't one in my house!"—Exchange.

[LETTER TO MRS. PINKHAM NO. 46,970]

"I had female complaints so bad that it caused me to have hysterical fits; have had as many as nine in one day."

"Five bottles of Lydia E. Pinkham's Vegetable Compound cured me and it has been a year since I had an attack."

Mrs. Edna Jackson, Pearl, La.

If Mrs. Pinkham's Compound will cure such severe cases as this surely it must be a great medicine—is there any sufferer foolish enough not to give it a trial?

## Drink Grain-O.

After you have concluded that you ought not to drink coffee it is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and taste like the finest grades of coffee and costs about 1/4 as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain O, the new food drink. 15 and 25c.
